Most Important Symptoms: Asthma-like and/or skin allergy-like symptoms.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media: May be combustible at high temperature. Use appropriate media (CO₂, dry chemical, ABC fire extinguisher, or foam) for adjacent fire. Do not use high power water jet.

Special protective equipment & precautions for firefighters: Wear self-contained, approved breathing apparatus and full protective clothing, including eye protection and boots.

Flash Points: 171 °C / 339.8 °F at ca. 1013 hPa (open cup)

Specific hazards arising from the chemical: Thermal decomposition can lead to release of irritating gases and vapors such as carbon monoxide/dioxide. See also Stability and Reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures:	Ensure adequate ventilation and wear appropriate personal protective equipment. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.
Environmental precautions:	Prevent release to surface water. Do not allow water used to extinguish fire to enter drains or waterways.
Methods and material for containment and cleaning up:	Prevent further leakage or spillage if safe to do so. For small spills add absorbent (soil may be used in the absence of other suitable materials) scoop up material and place in a sealed, liquid-proof container for disposal. For large spills dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Remaining liquid may be absorbed on non-combustible absorbent material and shoveled into containers.

7 HANDLING & STORAGE

Precautions for safe handling:	Ensure adequate ventilation. Handle in accordance with good industrial hygiene and safety practice. See section 8 for recommendations on the use of personal protective equipment. Keep container closed when not in use.
Conditions for safe storage, incl. any incompatibilities:	Keep container tightly closed in a dry and well-ventilated place at ambient temperatures. Keep away from heat and incompatible materials (see section 10 for incompatibilities).
