	Mixture C		
12	Supguard PMB	Preservative	0.7
13	Anti-ageing complex 246	Botanical	2
14	fragrance	Fragrance	0.2

Method

Hydrate Xanthan gum with Glycerine and add to water to further hydrate. Add the hyaluronic acid and stir for 15minutes. Blend mixture B in another beaker and heat both beakers to 75degrees until melted. Add mixture A to mixture B and homogenize. Cool to 40degrees and add Mixture C one ingredient at a time and mix well. Package product.
